This Rally renews the pro-life movement in Pa. This Rally also urges the Pa. General Assembly to pass S.B.300 and S.B.3 to, respectively, defund Planned Parenthood and other abortion committers in Pa. and to extend Pa.'s ban on abortions from 24-weeks to 20-weeks gestation and ban dismemberment abortions with the same exceptions as Pa.'s Abortion Control Act.

# Planned Parenthood Leads the Opposition

Planned Parenthood (PP) and their political enablers, such as Gov. Tom Wolf, are leading the opposition to this proposed legislation. Cecile Richards, the PP National President, has visited Pa., including our State Capitol, on several occasions, to express this opposition.

## Defund Planned Parenthood in Pa.!

### Why Attend This Rally?

This Rally will provide an effective way to fulfill our moral and civic duties to protect the sanctity of all human life.

This Rally will equip and encourage you to effectively bring the truth about the evils of PP and the brutal and deadly injustice of abortion to our fellow citizens and to our state legislators.

Finally, this Rally will remind our state legislators that

- their actions can save and have saved thousands of women and children from abortion, and
- they have the support of many citizens throughout Pa.

## Restore Pennsylvania's Leadership!

**Pass**  **and**  **S.B.3**

*"When the sacredness of life before birth is attacked, we will stand up and proclaim that no one ever has the authority to destroy unborn life."*

Pope John Paul II  
October 7, 1979  
Washington, DC

For many years, Pa. led the nation in the passage of pro-life legislation. Such legislation has resulted in the reduction of the annual number of abortions committed in Pa. from 65,777 in 1980 to 31,818 in 2015.

However, Pa. has not yet joined the many other states that have passed this life-saving pro-life legislation. Pa. is still providing approximately \$6 million annually to PP and allowing 1,588 dismemberment abortions and 380 post 20-week gestation abortions to be committed each year.

Please join our efforts to renew the necessary zeal, courage and resolve among our fellow citizens and our state legislators to protect additional mothers and children from abortion.
