John Desmond (Des) Mcgrath

To: President Donald J Trump
White House: 1600 Pennsylvania Avenue Washington DC 20500. VIA USPS,UPS and Fedex.

Re: A letter and a stamp are a small price to pay for our freedom, my call to all Americans to mail you and:
Demand a Forensic Audit of the entire voting system, in particular the vote counting machines for 50 States.

Dear President Trump;

I am praying that you hold that title for 4 more year's and please say hello to your lovely wife; we have a mutual friend, [REDACTED] and Melania shared a flat in Milano at the same time I lived in Paris France. I have written a number of articles about you over the past 4+ years and the most important are the Liberty's Twilight trilogy¹ where I have discussed this crucial election and offered some background historical perspective.

I have a BSc "Honors" in Petroleum Engineering from Montana Tech, Butte, Montana, an historic and proud edifice of higher learning near and dear to my heart. That superb education and subsequent experience gives me a perspective that many others do not have. Our profession involves the searching, discovery, evaluation, and long-term modeling/monitoring of something none but God can directly see: Oil and Gas deposits buried under millions of years of rocks that memorialize Earth's long upheaval and our long crawl from the Precambrian 'swamps to the stars'².

Yet, Petroleum Engineers see through the mists of time and mountainous overburden to predict their value and future performance with amazing accuracy through the use of applied mathematics, statistics and the collection of important data sets. We can through brief Shut-in Pressure Buildup, Drill Stem and Flow after Flow Tests, analyzing but one parameter, how downhole pressure changes over time; evaluate the size, extent and drive mechanisms of the various reservoirs. Some reservoirs have impervious boundaries called fault lines by the oil or gas wells where these tests are conducted. These fault lines show up as significant breakpoints in the pressure change graphs that we plot using the collected data sets.

The presence of these fault lines prevents us from seeing anything beyond and requires us to drill more wells in planned patterns to find anything of value beyond said barriers. At this critical hour, there is a monstrous fault line running through the body politic of these United States and this Liberty suppressing election. The referenced video of detailed statistical analysis performed by Dr. Shiva Ayyaduri MIT PhD, Phil Evans B.S.E.E and Bennie Smith, Shelby County TN Election Commissioner; has, in my professional opinion, drilled beyond the fault line of contested election results and proven beyond a shadow of a doubt that some computer algorithm or intelligent unseen hand has progressively, repeatedly and mysteriously moved votes that were originally intended for you, Donald J Trump, beyond a computer generated fault line and made them inaccessible to your re-election efforts. By robbing your fervent supporters (those who the pollsters failed to see, measure or understand) of their vote, they have cast adrift the very cornerstone, an open and honest electoral process, of this Constitutional Republic in a turbulent sea of well-choreographed mobocracy. SEE: Dr. SHIVA LIVE: MIT PhD Analysis of Michigan Votes Reveals Unfortunate Truth of U.S. Voting Systems³. Unless Big Tech also censors this valuable analysis as they have been consistently doing in open, blatant and treasonous suppression of the First Amendment.

Thursday, November 12, 2020

I am not amongst the historic 70+ million who voted for you as I am a Canadian Citizen. I work here under a discriminatory TN (Temporary under NAFTA) Visa which prohibits me from having any immigration intent such as applying for Permanent Residency or Citizenship despite my accomplishments and attendant meritocracy. While I have verbalized and penned my support for you these past 5 ½ years I could not support your campaigns financially, as to do so would break the law.

Campaigns may not solicit or accept contributions from foreign nationals. Federal law prohibits contributions, donations, expenditures and disbursements solicited, directed, received or made directly or indirectly by or from foreign nationals in connection with any election — federal, state or local.⁴

However, given that the election is passed I have donated \$500 to your “Election Integrity Fund”, knowing full well that I may be prosecuted by the “powers that be” within the “deep state”. To that end I am more than willing to defend myself Pro Se in a court of law on the basis that mine is not a political electoral donation, but rather my small contribution towards the preservation of electoral integrity, rule of law in these United States as a Law abiding taxpayer trying to support and defend the Constitution of the United States against all enemies, foreign and domestic. This is not a Trump vs Biden or Republican vs Democrat issue but is as fundamental as the Boston Tea Party’s rebellion against “Taxation without Representation.” It is a payment for Liberty’s Triumph over Tyranny which like Freedom rises above any and all political affiliations for all creeds, races, genders or religions.

The fundamental question: Who controls the levers of power over the electoral system by which “We the People” democratically send representatives to defend our Blood and Treasure, the Constitution of the United States, against all enemies, foreign and domestic; with the express task of preserving this Constitutional Republic?

“We the People” regardless of political ideology via “We the People’s” State Legislators?

Or those who wish to tear up the Constitution as an old outdated document; a cabal of an entrenched deep state bureaucracy, extraterritorially funded community organizers and non-elected Judicial Activists?

Or even more nefarious, should this power be wielded by “persons unknown” who, darkly at dead of night, the sods with... ..bayonets turning; By the struggling moonbeam’s misty light, And the lantern dimly burning⁵, using mere computer keystrokes, disenfranchise and move large blocks of voters between competing political parties or candidates on either side of database fault lines? What if this power is not merely used for national partisan gains but used over repeated election cycles to force an outcome, *Cui bono?* for whichever candidate or political party offers the best desired result? What if these “persons unknown” have interests and goals that lie extraterritorial to these United States that are inimical to “We the People” and the Sovereignty of these United States thus leading to the shredding of the Constitution and Death of the Republic?

What if this contrived database fault line is designed to accentuate the political, social and racial fault lines within these United States such that we like rats in a cage with a single crust of bread, fight to the death, never once working together to escape the trap we are in, never noticing that in the shadows there are unseen hands hedging bets on which side wins while they sell this hard won Republic out to the highest bidding extraterritorial interests, including Communist China.

⁴ 11 CFR § 110.20 - Prohibition on contributions, donations, expenditures, independent expenditures, and disbursements by foreign nationals (52 U.S.C. 30121, 36 U.S.C. 510).

⁵ The Burial of Sir John Moore after Corunna (1817) by Charles Wolfe

I am 99% certain, beyond a shadow of a doubt, that the extrapolated breakpoints in the data that Ayyaduri, Evans and Smith et al. have presented in their thorough video presentation are the prima facie fingerprints of an unseen hand manipulating this election for as of yet undetermined ulterior motives. An unseen hand pushing both sides to a breaking point in a world strained and on the verge of socio-economic collapse due to a CCP⁶ Virus deliberately allowed to escape Wuhan China, aided and abetted by the WHO. An unseen hand prompting the WHO to issue a COVID-19 recovery Manifesto⁷ that only contains the word 'vaccine' once in passing while mentioning the word 'Climate' 22 times and never once mentioning China or future pandemic containment protocols. "Consistent Stupidity?"⁸ Why does the WHO recovery manifesto echo the Saunders/Warren/Harris manifesto of the Joe Biden Democrats, which one is the Chicken or Egg? George Washington warned us to avoid attachments and entanglements in foreign affairs... [that have] ..nothing to do with the interests of America⁹.

"Single acts of tyranny may be ascribed to the accidental opinion of a day; but a series of oppressions, begun at a distinguished period, and pursued unalterably through every change of ministers, too plainly prove a deliberate, systematical plan of reducing us to slavery." Thomas Jefferson¹⁰

It is a telling statement that three engineers/scientists can, using simple statistics and mathematics that a gifted high school student could duplicate, offer incontrovertible proof of a corrupted electoral process. All the while 90% of the media pundit/puppets, owned by 6 major corporations, who no longer do any investigative journalism, tell "We the People" no fraud exists in unison with the Big Tech triumvirate of Google, Facebook, Twitter et al, who are in open warfare against the First Amendment and suppressing any mention of 'Vote Fraud'.

A team of Petroleum Engineers could have done better job polling than the number inflating propagandists of the past two election cycles.

President Trump, this is your John Paul Jones "I have not yet begun to fight" moment. There is no future for an America where the Electoral system and the formerly "Free Press" are both so corrupted by unseen hands openly hostile to the founding principles of the Republic. This is not a partisan issue and every freedom loving American regardless of political affiliation needs to be able to sleep at night with the peace of mind that you stopped the unseen hand, who, 'darkly at dead of night' tried to steal this election and seize the Republic.

I humbly ask you to use every means necessary and engage your 70+M voters and those democrats who while not supporting you in the election are equally concerned that their vote can also be changed with a simple keystroke by persons unknown without their consent or knowledge. Use all their voices to: **Request, NO DEMAND a forensic audit of this election including the machines used in all 50 states.** *"If we fail, at least let our children and our children's children say of us we justified our brief moment here. We did all that could be done."*¹¹
